

Show your school spirit!

Join us on Saturday, November 9th, 2019 for a

High Altitude Balloon Launch

On November 9th Science Heads will be launching a High-Altitude Balloon carrying experiments designed and built by students from your school! These experiments will likely reach the edge of space - an altitude of ~ 20 miles where the conditions are similar to those at the surface of Mars. This event is free and open to the public.

The day's FREE activities include:

- Presentations by the Student Scientists about their experiments.
- Participate in the exciting countdown to launch.
- Monitor the HAB's flight and recovery on monitors and specialized radio receivers.

Date/Time: Saturday November 9th, 2019 9:00 am – 2 pm (launch ~ 10 am)
Weather permitting. Visit www.ScienceHeads.org for updates.

Location: Lake Forest Sports Park, 28000 Rancho Pkwy, Lake Forest

Science Heads Inc. is a 501(c)(3) non-profit organization dedicated to supporting STEM education and raising science literacy in our local community. Programs like the HAB launch are made possible by very generous donations and support from local organizations and individuals.
